

PABLO GASTON DEBENEDETTI
Dean for Research
Class of 1950 Professor in Engineering and Applied Science
Professor of Chemical and Biological Engineering
Princeton University

Born: March 30, 1953
Place of birth: Buenos Aires, Argentina
Citizenship: U.S.

EDUCATION

Ingeniero Químico (B.S., Chemical Engineering), Buenos Aires University (Argentina), 1978
M.S., Chemical Engineering, Massachusetts Institute of Technology, 1981
Ph.D., Chemical Engineering, Massachusetts Institute of Technology, 1985

PROFESSIONAL EMPLOYMENT

1977-78 Process Engineer, Exibro, Buenos Aires, Argentina
1978-80 Process Development Engineer, O.de Nora, Impianti Elettrochimici, Milan, Italy
1981-84 Teaching and Research Assistant, Massachusetts Institute of Technology

FACULTY APPOINTMENTS

1985-90 Assistant Professor of Chemical Engineering, Princeton University
1990-94 Associate Professor of Chemical Engineering, Princeton University
1991-92 Visiting Professor, Dept. of Chemical Eng., University of California, Berkeley
1994- Professor of Chemical Engineering, Princeton University
1998- Class of 1950 Professor in Engineering and Applied Science

ADMINISTRATIVE APPOINTMENTS

1990-91 Director of Graduate Studies, Chem. Eng. Dept., Princeton University
1992-94 Director of Graduate Studies, Chem. Eng. Dept., Princeton University
1996-04 Chair of Chemical Engineering Department, Princeton University
2006-08 Director of Graduate Studies, Chem. Eng. Dept., Princeton University
2008 Acting Chair, Chemical Engineering Department, Princeton University
2008-2013 Vice Dean, School of Engineering and Applied Science, Princeton University
2012 (Fall) Acting Dean, School of Engineering and Applied Science, Princeton University
2013- Dean for Research, Princeton University

PROFESSIONAL ACTIVITIES

Editorial Boards

Journal of Supercritical Fluids, 1988-2004
Journal of Chemical and Engineering Data, 1996-1998
Reviews in Chemical Engineering, 1999-
Chemical Engineering Education, 2000-2009
Industrial and Engineering Chemistry Research, 2001-2004
Physica A, Advisory Editor, 2001-

The Journal of Chemical Physics, 2006-2009
AIChE Journal, Associate Editor for Perspectives, 2006-2010
AIChE Journal, Consulting Editor for Thermodynamics, 2012-
Proceedings of the National Academy of Sciences, 2013-2018

Advisory Councils, Boards

Department of Chemical Engineering Graduate Program Academic Review, University of Cincinnati, 1996
NRC Panel for Chemical Science and Technology, Board of Assessment of NIST Programs, 1997-2000
Department of Chemical Engineering, Massachusetts Institute of Technology, Visiting Comm., 1997-2005
Department of Chemical & Biomolecular Engineering, Cornell University, Advisory Council, 1999-2005
Department of Chemical Engineering Academic Review, Vanderbilt University, 2000
School of Chemical Engineering Academic Review, Georgia Institute of Technology, 2001
Department of Chemical Engineering, City College of CUNY, Advisory Council, 2004-
Council for Chemical Research, Governing Board, 2004-2006
Center for Talented Youth, Johns Hopkins University; Cogito Project Advisory Board, 2005-
Department of Chemical Engineering, Pennsylvania State University, Advisory Council, 2006-2010
Board on Chemical Sciences and Technology, The National Academies, 2006-2012
Board on Chemical Sciences and Technology, The National Academies, co-Chair, 2011-2013
Department of Chemical Engineering, Columbia University, 2010-
Department of Sponsored Research, Massachusetts Institute of Technology, Visiting Committee, 2014-

Award Committees

Alpha Chi Sigma Award subcommittee, American Institute of Chemical Engineers, 1994
Evaluator of Engineering Fellowship Applications, Guggenheim Foundation, 1996-2004
Colburn Award subcommittee, American Institute of Chemical Engineers, 2001
Chemical Engineering Peer Committee, National Academy of Engineering, 2002-2005
Awards Committee, American Institute of Chemical Engineers, 2001-2006
Blue-Ribbon Awards Committee, American Institute of Chemical Engineers, 2007-2008
World Cultural Council, Albert Einstein Prize Committee, 2010-2015
Bernard M. Gordon Prize Committee, National Academy of Engineering, 2011-2015
Blavatnik Award for Young Scientists, New York Academy of Sciences, 2011-

Organization of Technical Conferences

Chair, Area 1a, Thermodynamics and Transport Properties, American Institute of Chemical Engineers, 1996-1998
Organizing Committee, NATO Advanced Study Institute on Supercritical Fluids, Kemer, Turkey, July 12-24, 1998
Organizing Committee, 5th International Symposium on Supercritical Fluids (ISSF 2000), Atlanta, GA, April 9-11, 2000
Organizing Committee, 6th Liblice Conference on the Statistical Mechanics of Liquids, Czech Republic, June 9-14, 2002
Co-Chair, Gordon Research Conference on Water and Aqueous Solutions, August 4-9, 2002
U.S. Frontiers of Engineering, National Academy of Engineering, Organizing Committee, Irvine, CA, September 19-21, 2002
U.S. Frontiers of Engineering, National Academy of Engineering, Chair, Organizing Committee, 2003-05
Co-Chair, CECAM Workshop on Metastability and Landscapes in Complex Systems, Lyon, France, May 22-24, 2003
Co-Chair, Symposium on "The Future of Chemical Engineering Research", Austin, TX, November 8th, 2004
Organizing Committee, Council for Chemical Research Workshop on "Process Analytical Technology", Center for Advanced Research in Biotechnology, Rockville, MD, December 13, 2005
Co-organizer, Symposium on "Packing Problems, Classical Ground States, and Glasses," Princeton Center for Theoretical Physics, Princeton University, April 12-13, 2007
Chair, Council for Chemical Research Workshop on "Modeling Challenges in Process Development:

- Approaches in the Chemical and Pharmaceutical Industries,” University of Maryland Biotechnology Institute, Rockville, MD, June 7-8, 2007
- Organizing Committee, Faraday Discussion 146, “Wetting Dynamics of Hydrophobic and Structured Surfaces”, Jefferson Hotel, Richmond, VA, April 12-14, 2010.
- Co-organizer, Workshop on “Towards Unifying Concepts in the Physics of Aperiodic Systems”, Princeton Center for Theoretical Science, Princeton University, October 14-15, 2011.
- Co-organizer, International School of Physics Enrico Fermi on “Water: Fundamentals as the Basis for Understanding the Environment and Promoting Technology.” Varenna, Italy, July 7-13, 2013.
- Co-organizer, Workshop on “Origin of Biological Homochirality”, Princeton Center for Theoretical Science, Princeton University, April 24-25, 2014.
- Co-organizer, Workshop on “Ice Nucleation”, Princeton Center for Theoretical Science, Princeton University, April 23-24, 2015.

University Service

- Churchill Fellowships Selection Committee, 1986-87, 1987-88
- Graduate School Fellowship Subcommittee, 1990-91
- Public Lectures Committee, 1989-90, 1990-91
- Graduate School Policy Subcommittee, 1993-94
- President's Strategic Planning Committee (Graduate School), 1993-94
- Student Life and Discipline Subcommittee, 1992-93
- Faculty Committee on the Graduate School, 1990-91, 1992-93, 1993-94, 2006-2008
- Priorities Committee, 1993-94, 1994-95
- School of Engineering Wu Fellowship Committee, 1995-96
- Intellectual Property Committee, 1997-98
- Faculty Advisory Committee on Appointments and Advancements, 1998-99
- School of Engineering and Applied Science, Space Committee, 2003-04
- School of Engineering and Applied Science, Diversity Task Force, 2005-2008
- Committee on Undergraduate Admission and Financial Aid, 2006-2009
- Graduate School Policy Subcommittee, 2006-2008
- Princeton Sustainability Committee, 2008-
- Executive Committee, Princeton Inst. for Computational Science and Engineering (PICSciE), 2008-2013
- University Research Board, 2009-2012
- Executive Committee, Andlinger Center for Energy and the Environment, 2008-2013
- Council on International Teaching and Research, Executive Committee, 2012-2013
- Committee on Appointments and Advancements for Professional Researchers and Professional Specialists (C7) (Chair), 2013-
- Conflict of Interest in Research Committee (Chair), 2013-
- Executive Compliance Committee, 2013-
- Executive Risk Management Committee, 2013-
- University Research Board (Chair), 2013-
- Strategic Planning Committee on Sponsored Research (Co-Chair), 2014-
- Search Committee, Vice President for Princeton Plasma Physics Laboratory (Chair), 2015
- Search Committee, Dean of the School of Engineering and Applied Science (Chair), 2015

HONORS AND AWARDS

Research and Scholarship

- 1978 European Economic Community Fellow
- 1987 NSF Presidential Young Investigator Award
- 1989 Camille and Henry Dreyfus Teacher-Scholar Award
- 1991 John Simon Guggenheim Memorial Foundation Fellowship
- 1996 Best New Professional/Scholarly Book in Chemistry: *Metastable Liquids. Concepts and Principles*, Association of American Publishers

- 1997 Professional Progress Award, American Institute of Chemical Engineers
- 2000 National Academy of Engineering
- 2001 J.M. Prausnitz Award in Applied Chemical Thermodynamics
- 2008 Joel Henry Hildebrand Award in the Theoretical and Experimental Chemistry of Liquids, American Chemical Society
- 2008 William H. Walker Award for Excellence in Contributions to Chemical Engineering Literature, American Institute of Chemical Engineers
- 2008 Named one of “100 Chemical Engineers of the Modern Era”, American Institute of Chemical Engineers
- 2008 American Academy of Arts and Sciences
- 2011 Fellow, American Association for the Advancement of Science
- 2012 National Academy of Sciences
- 2013 Fellow, American Institute of Chemical Engineers
- 2014 Honorary Professor, Beijing University of Chemical Technology
- 2014 Benjamin Garver Lamme Award, American Society for Engineering Education
- 2015 Fellow, American Physical Society

Teaching

- 2004 Excellence in Teaching Award, Engineering Council, Princeton University
- 2005 Excellence in Teaching Award, Engineering Council, Princeton University
- 2006 Excellence in Teaching Award, Engineering Council, Princeton University
- 2007 Excellence in Teaching Award, Engineering Council, Princeton University (Fall & Spring)
- 2008 Distinguished Teacher Award, School of Engineering and Applied Science, Princeton University
- 2008 President’s Award for Distinguished Teaching, Princeton University
- 2013 Excellence in Teaching Award, Engineering Council, Princeton University (Lifetime Achievement)
- 2016 Phi Beta Kappa Teaching Award, Princeton University

Honorary Lectures

- 1992 Robert W. Vaughan Memorial Lecture, Chem. Eng. Dept., California Institute of Technology
- 1997 Stanley Katz Memorial Lecture, Department of Chemical Engineering., City College of the City University of New York
- 1997 Kurt Wohl Memorial Lecture, Chemical Engineering Department, University of Delaware
- 1998 Ashton Cary Lecture, School of Chemical Engineering, Georgia Institute of Technology
- 2003 Dean’s Distinguished Colloquia Series, College of Engineering and Applied Sciences, State University of New York, Stony Brook
- 2003 Rutgers Collaboratus XIII Distinguished Lecture, Department of Chemical and Biochemical Engineering, Rutgers University
- 2003 Berkeley Lectures in Chemical Engineering, Department of Chemical Engineering, University of California, Berkeley
- 2003 Area 1a Keynote Lecture, American Institute of Chemical Engineers
- 2005 Walker Lecture in Physical Chemistry, Departments of Chemistry and Chemical Engineering, Pennsylvania State University
- 2005 Donald L. Katz Lectureship, Department of Chemical Engineering, University of Michigan
- 2006 Patten Distinguished Lecturer, Dept. of Chemical and Biological Eng., U. of Colorado, Boulder
- 2007 Reilly Lectureship in Chemical and Biomolecular Engineering, Department of Chemical and Biomolecular Engineering, University of Notre Dame
- 2007 Michael M. Abbott Lecture, Department of Chemical and Biological Engineering, Rensselaer Polytechnic Institute
- 2007 Joe Smith Distinguished Lecture, Department of Chemical Engineering and Materials Science, University of California at Davis
- 2008 Kelly Lecturer, School of Chemical Engineering, Purdue University
- 2008 Hunter Henry Jr. Lecture, School of Chemical Engineering, Mississippi State University
- 2009 D.B. Robinson Distinguished Speaker, Schlumberger Lecture, Department of Chemical and

- Materials Engineering, University of Alberta
- 2011 Eli Ruckenstein Lecture, Department of Chemical and Biological Engineering, University at Buffalo, State University of New York
- 2012 William G. Lowrie Lectures, Department of Chemical and Biomolecular Engineering, The Ohio State University
- 2012 Fredrickson Lectures, Department of Chemical Engineering and Materials Science, University of Minnesota
- 2013 Julian C. Smith Lectures, Department of Chemical and Biomolecular Engineering, Cornell University
- 2013 Keynote Lecture, 13th International Conference on Properties and Phase Equilibria for Products and Process Design, Iguazú Falls, Argentina
- 2013 Chair Lecture, Department of Chemistry, University of Nebraska
- 2013 Institute Lecture, American Institute of Chemical Engineers
- 2014 Warren L. McCabe Lecture, Dept. of Chemical and Biomolecular Engineering, North Carolina State University
- 2014 Honorary Professorship Lecture, Beijing University of Chemical Technology
- 2014 Bird, Stewart and Lightfoot Lecture, Department of Chemical and Biological Engineering, University of Wisconsin
- 2014 Molecular Physics Lecture, Liblice Conference on the Statistical Mechanics of Liquids, Sec, Czech Republic
- 2015 David M. Mason Lectures, Department of Chemical Engineering, Stanford University
- 2015 Molecular Physics Lecture, Thermodynamics 2015 Conference, Copenhagen, Denmark
- 2015 Barnett Dodge Distinguished Lecture, Department of Chemical and Environmental Engineering, Yale University
- 2015 W.E. Palke Memorial Lectures, Department of Chemistry and Biochemistry, University of California, Santa Barbara
- 2016 John A. Quinn Lecture, Department of Chemical and Biomolecular Engineering, University of Pennsylvania

RESEARCH INTERESTS

Thermodynamics and Statistical Mechanics of Liquids and Glasses
Metastable Liquids
Water and Aqueous Solutions
Biopreservation
Nucleation
Protein Thermodynamics
Origin of Biological Homochirality

PROFESSIONAL SOCIETIES

American Association for the Advancement of Science
American Chemical Society
American Institute of Chemical Engineers
American Physical Society
American Society for Engineering Education

PABLO G. DEBENEDETTI

Bibliography

Book

Metastable Liquids. Concepts and Principles. Princeton University Press, **1996**.

Edited Book

Supercritical Fluids. Fundamentals and Applications. E. Kiran, P.G. Debenedetti, and C.J. Peters, eds. NATO Science Series E: Applied Sciences. Vol. 366. Kluwer, **2000**.

Journal Articles

11. P.G. Debenedetti and S.C. Glotzer, Tribute to H. Eugene Stanley, Preface to co-guest-edited Festschrift, **J. Phys. Chem. B**, **115**, 13963, **2011**.
12. P.G. Debenedetti, Stretched to the Limit. Invited News and Views article, **Nature Physics**, **9**, 7, **2013**.

Patents

1. Formation of Protein Microparticles by Anti-Solvent Precipitation, Australian Patent 668367, August 20, 1996 [with G.-B. Lim and R.K. Prud'homme]
2. Formation of Protein Microparticles by Anti-Solvent Precipitation, European Patent EP 0542314 B1, October 29, 1998 [with G.-B. Lim and R.K. Prud'homme]
3. Preparation of Protein Microparticles by Supercritical Fluid Precipitation, US Patent 6,063,910, May 16, 2000 [with G.-B. Lim and R.K. Prud'homme]

PABLO G. DEBENEDETTI[§]

I. Named, Invited and Plenary Lectures

1988

"Cluster Formation in Near-Critical Systems: Classical and Non-Classical Modeling". International Symposium on Thermodynamics in Chemical Engineering and Industry, Beijing, China, June 2, 1988.

1989

"Clustering in Supercritical Mixtures: Theory, Applications, and Simulations". Fifth International Conference on Fluid Properties and Phase Equilibria for Chemical Process Design, Banff Center, Banff, Canada, May 2, 1989.

1992

"Particle Formation by Rapid Expansion of Supercritical Solutions". Engineering Foundation Meeting on Vapor-Phase Manufacture of Ceramics, Kona, Hawaii, January 13, 1992.

"Use of Supercritical Fluids for the Production of Controlled Release Devices". Gordon Research Conference on Polymers for Biosystems, Oxnard, California, February 28, 1992.

"Application of Supercritical Fluids for the Production of Sustained Delivery Devices". Second European Symposium on Controlled Drug Delivery, Noordwijk aan Zee, Holland, April 1, 1992.

"Structure and Dynamics of Supercooled Liquids: Spinodals, Glasses, and Some Open Questions on the Theory of Metastability." Robert W. Vaughan Memorial Lecture. Department of Chemical Engineering, California Institute of Technology, April 14, 1992.

1993

"Supercritical Fluids: Fundamentals and Applications". 6th International Congress on Engineering and Food, Chiba, Japan, May 26, 1993.

1994

"Towards an Understanding of Supercooled and Glassy Water." International Symposium on Molecular Thermodynamics and Molecular Simulation, Kyoto University, Kyoto, Japan, January 12, 1994.

"Phase Equilibrium, Thermal Expansion, and Stability Limits of a Model Network-Forming Fluid: Implications for the Phase Behavior of Supercooled Water". Gordon Research Conference on Water and Aqueous Solutions, Holderness School, Plymouth, New Hampshire, August 7, 1994.

"The Thermodynamics of Supercooled Water: a Critical Review". 12th International Conference on the Properties of Water and Steam, Orlando, Florida, September 13, 1994.

1995

"Thermodynamics of Supercooled and Glassy Water." Murphree Award Symposium honoring Charles A. Eckert, ACS Spring Meeting, Anaheim, California, April 3, 1995.

"Supercritical Fluids", a four-lecture course. Astra-Hässle, Mölndal, Sweden, May 22-23, 1995.

"Materials Processing with Supercritical Fluids". Invited tutorial. American Association for Aerosol Research, 14th annual meeting. Pittsburgh, Pennsylvania, October 9, 1995.

[§] This list includes only named, invited, plenary lectures (I) and seminars (II). Contributed talks and posters are not included.

1996

"Particle Formation from Supercritical Fluids." International Fine Particle Research Institute Annual Meeting, Nancy, France, June 11, 1996.

"The Glass Transition: Thermodynamic and Dynamic Viewpoints." 1996 Colorado Protein Stability Conference, Breckenridge, Colorado, July 13, 1996.

"Metastable Water." Gordon Research Conference on Physics and Physical Chemistry of Water and Aqueous Solutions, Holderness School, Plymouth, New Hampshire, August 5, 1996.

"Materials Processing with Supercritical Fluids." Third International Symposium on High Pressure Chemical Engineering, ETH (Swiss Federal Institute of Technology), Zürich, Switzerland, October 8, 1996.

1997

"Thermodynamics of Polyamorphic Phase Transitions in Network-Forming Fluids." International Symposium on Molecular Thermodynamics and Molecular Simulation, Hosei University, Tokyo, Japan, January 14, 1997.

"Holes, Packings and Networks" Towards a Rigorous Understanding of Liquids Under Extreme Conditions." Stanley Katz Memorial Lecture, Department of Chemical Engineering, City College of the City University of New York, May 12, 1997.

"Thermodynamics of Supercooled and Glassy Water." 13th Symposium on Thermophysical Properties, Boulder, CO, June 23, 1997.

"Models of Liquid Polyamorphism." Gordon Research Conference on the Chemistry and Physics of Liquids, Holderness School, Plymouth, New Hampshire, August 5, 1997.

"Towards a Fundamental Understanding of Liquids Under Extreme Conditions." Kurt Wohl Memorial Lecture, Department of Chemical Engineering, University of Delaware, September 19, 1997.

"Materials Processing with Supercritical Fluids." Engineering Foundation Conference on Separation Technology: Separations for Clean Production, Davos, Switzerland, October 28, 1997.

1998

"Thermodynamics of Supercooled and Glassy Water." March Annual Meeting of the American Physical Society, Symposium on The Chemistry and Physics of Water, Los Angeles, California, March 16, 1998.

"Statistical Geometry, Energy Landscapes, and the Glass Transition." Murphree Award Symposium Honoring Stanley I. Sandler, American Chemical Society Meeting, Dallas, Texas, April 1, 1998.

"Liquids at Extreme Conditions: Natural Occurrence, Engineering Applications, and Scientific Challenges." Ashton Cary Lecture, School of Chemical Engineering, Georgia Institute of Technology, Atlanta, Georgia, April 13, 1998.

"Thermodynamics of Supercooled and Glassy Water." Ashton Cary Lecture, School of Chemical Engineering, Georgia Institute of Technology, Atlanta, Georgia, April 14, 1998.

"Statistical Geometry and Energy Landscapes in Liquids and Glasses: Fundamentals and Applications." Eighth International Conference on Properties and Phase Equilibria for Product and Process Design. Noordwijkerhout, The Netherlands, April 30, 1998.

"Statistical Geometry and Energy Landscapes in Liquids and Glasses." 5th Liblice Conference on the Statistical Mechanics of Liquids, Zelezná Ruda, Czech Republic, June 9, 1998.

“Phase Separation by Nucleation and Growth, and by Spinodal Decomposition: Fundamentals.” NATO Advanced Study Institute, Supercritical Fluids. Fundamentals and Applications, Kemer, Turkey, July 20, 1998.

“Towards an Improved Understanding of Supercooled Liquids and Glasses.” Professional Progress Award Lecture, American Institute of Chemical Engineers, Miami Beach, Florida, November 17, 1998.

1999

“The Equation of State of an Energy Landscape.” 81st Statistical Mechanics Conference, Rutgers University, New Brunswick, New Jersey, May 9, 1999.

“Statistical Geometry and Energy Landscapes in Liquids and Glasses.” Symposium in Honor of Eli Ruckenstein, State University of New York, Buffalo, June 19, 1999.

“Thermodynamics of Supercooled and Glassy Water.” ACS National Meeting, New Orleans, August 24, 1999.

“Thermodynamics of Supercooled and Glassy Water.” International Bunsen Discussion Meeting on Metastable Water, Schloss Nordkirchen, Germany, September 23, 1999.

2000

"Materials Processing with Supercritical Fluids. Pharmaceutical Applications." 5th International Symposium on Supercritical Fluids, Atlanta, Georgia, April 9, 2000.

"Recent Developments on the Statistical Geometry of Amorphous Packings." 2nd International TRI-Princeton Workshop on Characterization of Porous Materials: from Angstroms to Millimeters, Princeton, New Jersey, June 19, 2000.

"Recent Advances in the Theory of Metastable Fluids and Glasses." 14th Symposium on Thermophysical Properties, Boulder, Colorado, June 28, 2000.

“Recent Developments in the Theory of Bulk and Confined Water.” 3rd Joint China/USA Chemical Engineering Conference – CUChE3 – Beijing, China, September 28, 2000.

2001

“Towards a Quantification of Disorder in Liquids and Solids.” Cullimore Lecture, New Jersey Institute of Technology, Newark, New Jersey, January 24, 2001.

“Recent Developments in the Theory of Bulk and Confined Water.” Symposium on “Probing Molecular Aqueous Environments in Chemistry and Biology,” American Chemical Society National Meeting, San Diego, California, April 2, 2001.

“Preservation of Biomolecules in Carbohydrate-Water Glasses.” Ipatieff Award Symposium Honoring Joan Brennecke, American Chemical Society National meeting, San Diego, California, April 4, 2001.

“Recent Developments in the Theory of Amorphous Aqueous Systems.” The Amorphous State: a Critical Review. Churchill College, Cambridge University, May 16, 2001.

“Ubiquitous but Unusual, Odd but Ordered: Recent Developments in Aqueous Thermodynamics.” John M. Prausnitz Award Lecture. 9th International Conference on Properties and Phase Equilibria for Product and Process Design. Kurashiki, Japan, May 23, 2001.

“Recent Developments in the Theory of Bulk and Confined Water.” Euresco Conference on Water at the New Millennium. Obernai, France, September 11, 2001.

“Recent Developments in the Theory of Bulk and Confined Water.” Session in Honor of James Wei. Annual meeting of the American Institute of Chemical Engineers, Reno, Nevada, November 6, 2001.

“Recent Developments in the Theory of Supercooled Liquids and Glasses.” Session on Thermodynamics of Amorphous Solids and Metastable Liquids. Annual meeting of the American Institute of Chemical Engineers, Reno, Nevada, November 8, 2001.

2002

“Thermodynamics of Glasses: the Kauzmann Paradox Revisited, Energy Landscape Diversity, and Supercooled Liquid Properties.” Second conference on Unifying Concepts in Glass Physics. Accademia dei Lincei, Rome, Italy, February 28, 2002.

“Thermodynamics and Energy Landscapes.” American Physical Society Division of Polymer Physics short course on Glasses and the Glass Transition. APS meeting, Indianapolis, Indiana, March 16, 2002.

“Recent Progress in Aqueous Thermodynamics.” First North American Lectures in Chemical Engineering. Mexican Petroleum Institute, Mexico City, Mexico, April 25, 2002.

“Towards an Improved Understanding of Glasses and Viscous Liquids.” First North American Lectures in Chemical Engineering. Institute of Physics, Mexican National Autonomous University, Mexico City, Mexico, April 26, 2002.

“Supercooled Liquids and Glasses.” A three-lecture course. Physics Department, University of Rome “La Sapienza”, Rome, Italy, May 13, 15, 17, 2002.

“Supercooled and Glassy Water.” A three-lecture course. Physics Department, University of Rome III, Rome, Italy, May 20, 22, 24, 2002.

“Recent Developments in the Theory of Supercooled Liquids and Glasses.” 6th Liblice Conference on the Statistical Mechanics of Liquids, Spindleruv Mlyn, Czech Republic, June 10, 2002.

“Relationship Between Structural Order and Liquid-Phase Anomalies: Similarities and Differences Between Water and Silica.” CECAM Workshop: Understanding the Similarities of SiO₂, H₂O and Other Systems with Local Tetrahedral Order, Lyon, France, July 24, 2002.

2003

“Metastability, Confinement and Hydrophobicity: Recent Progress in Aqueous Thermodynamics.” Dean’s Distinguished Colloquia Series, College of Engineering and Applied Sciences, State University of New York at Stony Brook, February 26, 2003.

“Metastability, Confinement and Hydrophobicity: Recent Progress in Aqueous Thermodynamics.” Thirteenth Annual Merck Distinguished Lecture Series. Department of Chemical and Biochemical Engineering, Rutgers University, March 27, 2003.

“Recent Progress in the Thermodynamics of Supercooled Liquids and Glasses.” 2003 Berkeley Lectures in Chemical Engineering. Department of Chemical Engineering, University of California at Berkeley, April 28, 2003.

“Towards the Engineering of Biological Stability in the Amorphous Solid State.” 2003 Berkeley Lectures in Chemical Engineering. Department of Chemical Engineering, University of California at Berkeley, May 1, 2003.

“The Kauzmann Paradox Revisited.” Chemistry and Dynamics in Complex Environments, Telluride Summer Research Conference. Telluride, Colorado, June 23, 2003.

“Recent Progress in the Theory of Glass-Forming Systems.” Area 1a Keynote Lecture, American Institute of Chemical Engineers Annual Meeting, San Francisco, California, November 18, 2003.

2004

“Some Recent Results on the Theory of Glasses and Supercooled Liquids.” Symposium on the Occasion of George Stell’s Retirement, Chemistry Department, State University of New York at Stony Brook, April 24, 2004.

“Energy Landscape Statistics.” 91st Statistical Mechanics Conference, Rutgers University, New Brunswick, New Jersey, May 16th, 2004.

“Some Recent Developments in the Theory of Glasses.” Unifying Concepts in Glass Physics III, Jawaharlal Nehru Institute for Advanced Scientific Research, Bangalore, India, July 1, 2004.

“Thermodynamics of Supercooled and Glassy Water.” Plenary Lecture. 18th IUPAC International Conference on Chemical Thermodynamics, Beijing, China, August 17, 2004.

“Thermodynamics of Supercooled and Glassy Water.” ISOPOW 2004, 9th International Symposium on the Properties of Water, Mar del Plata, Argentina, September 26, 2004.

“Supercooled and Glassy Water: Thermodynamics, Transport Phenomena and Relaxation.” Workshop on Dynamics and Relaxation in Supercooled Fluids and Glassy Systems, Mar del Plata, Argentina, September 28, 2004.

“New Applications of Thermodynamics in the Life and Material Sciences.” Plenary Lecture. Dechema/GVC Annual Meeting, Karlsruhe, Germany, October 12, 2004.

2005

“Why do Liquids Form Glasses?” Inaugural Walker Lecture in Physical Chemistry. Departments of Chemistry and Chemical Engineering, Pennsylvania State University, January 20, 2005.

“Cold Water.” Walker Lecture in Physical Chemistry. Departments of Chemistry and Chemical Engineering, Pennsylvania State University, January 21, 2005.

“Applications of Thermodynamics to Molecular Design and Materials Characterization.” Donald L. Katz Lectureship, Department of Chemical Engineering, University of Michigan, April 7, 2005.

“Why do Liquids Form Glasses?” Donald L. Katz Lectureship, Department of Chemical Engineering, University of Michigan, April 8, 2005.

“New Results on the Structure of Water Glasses, and on the Thermodynamics of Binary Mixtures of Non-Polar Solutes in Water.” Thermo 2005 Symposium in Honor of Sandra Greer, University of Maryland at College Park, April 30, 2005.

“Towards the Engineering of Protein Stability.” Distinguished Seminar Series, Department of Chemical Engineering, University of California, Riverside, June 3, 2005.

“Thermodynamics and Dynamics of Supercooling and Vitrification: from Water to Simple Liquids.” Opening Plenary Lecture, 6th Liquid Matter Conference, Utrecht University, The Netherlands, July 2, 2005.

“Thermodynamics of Glasses and Supercooled Liquids: from Fundamentals to Applications.” Keynote Lecture, 7th World Congress of Chemical Engineering, Glasgow, Scotland, July 11, 2005.

“An Alternative View of Diffusion.” Session in Honor of Eli Ruckenstein’s 80th Birthday, AIChE Annual Meeting, Cincinnati, Ohio, October 31, 2005.

2006

“Thermodynamics of Confinement, Hydrophobicity and Supercooling. What is Special About Water?”

Patten Distinguished Lectureship, Department of Chemical and Biological Engineering, University of Colorado at Boulder, March 23, 2006.

"Confined Water and Bulk "Water." 7th Liblice Meeting on the Statistical Mechanics of Liquids, Lednice, Czech Republic, June 15, 2006.

"Liquid and Glassy Water under Hydrophobic, Hydrophilic and 'Patchy' Confinement." Gordon Research Conference on Water and Aqueous Solutions, Holderness School, Plymouth, New Hampshire, August 2, 2006.

"Metastable Thermodynamics of Confined Liquid and Glassy Water." Opening Plenary Lecture, IV Workshop on Nonequilibrium Phenomena in Supercooled Fluids, Glasses and Amorphous Materials, Scuola Normale Superiore, Pisa, Italy, September 18, 2006.

"Thermodynamics of Water in Nanoscale Confinement." Symposium in Celebration of the Life and Work of Robert C. Reid, Department of Chemical Engineering, Massachusetts Institute of Technology, October 13, 2006.

"Structure, Dynamics and Thermodynamics of Water Confined by Surfaces with Patterned Hydrophobicity." Session in Honor of Carol Hall's 60th Birthday, AIChE Annual Meeting, San Francisco, November 15th, 2006.

2007

"Water in Confined Spaces." Reilly Lectureship in Chemical and Biomolecular Engineering, Department of Chemical and Biomolecular Engineering, University of Notre Dame, April 3, 2007.

"From Particle Packings to Amino Acid Sequences: Statistical Characterization of Complex Systems." Reilly Lectureship in Chemical and Biomolecular Engineering, Department of Chemical and Biomolecular Engineering, University of Notre Dame, April 4, 2007.

"The Order Map: Towards a Smooth Progression of Liquid Behavior, from Hard Spheres to Water." Princeton Center for Theoretical Physics Symposium on Packing Problems, Classical Ground States and Glasses, Princeton University, April 13, 2007.

"Water in Confined Spaces." Michael M. Abbott Lecture. Department of Chemical and Biological Engineering, Rensselaer Polytechnic Institute, May 16, 2007.

"Water in Confined Spaces." Joe Smith Distinguished Lecture. Department of Chemical Engineering and Materials Science, University of California at Davis, June 5, 2007.

"Water in Confined Spaces." International Conference on Soft, Complex and Biological Matter (Socobim 2007), Citta del Mare, Sicily, July 17, 2007.

2008

"Hydrophobicity: a Theoretical and Computational Perspective." Centenary Seminar, Imperial College, London, March 12, 2008.

"Water in Confinement." Kelly Lecture, School of Chemical Engineering, Purdue University, March 18, 2008.

"Statistical Characterization of Structure in Complex Systems." Kelly Lecture, School of Chemical Engineering, Purdue University, March 19, 2008.

"Water in Confinement." Hunter Henry Lecture, Department of Chemical Engineering, Mississippi State University, March 25, 2008.

"Effect of Sequence on Protein Stability. A Numerical Study Using Water-Explicit Lattice Models." Industrial and Engineering Chemistry Divisional Fellow Award Symposium Honoring Ruben Carbonell, American Chemical Society National Meeting, New Orleans, April 7, 2008.

"Computational Studies of Confined Water." Joel Henry Hildebrand Award Lecture, Physical Chemistry Awards Symposium, American Chemical Society National Meeting, New Orleans, April 8, 2008.

"Liquid and Glassy Water in Nano-Scale Confinement." International Workshop on Aqueous Solutions and their Interfaces, Crete, June 26, 2008.

"Hydrophobicity and its Consequences: from Nano-Scale Hydration to Protein Phase Diagrams." Plenary Lecture, 20th International Symposium on Chemical Thermodynamics, Warsaw, August 4, 2008.

"Structural and Mechanical Properties of Glassy Water in Nano-Scale Confinement." Faraday Discussion, "Water: From Interfaces to the Bulk", Heriot-Watt University, Edinburgh, United Kingdom, August 29, 2008.

"Water in Confined Spaces." ADVANCE Distinguished Lecturer, Department of Chemical Engineering, Kansas State University, October 8, 2008.

"Some Recent Applications of Thermodynamics and Statistical Mechanics." Symposium in Honor of the 60th Birthday of George Stephanopoulos, AIChE National Meeting, Philadelphia, November 17, 2008.

2009

"Hydrophobic Hydration. Results from Simple, and from Detailed Models." Symposium in Honor of John Finney, University College of London, United Kingdom, January 8, 2009.

"Water: Simple Models of Complex Thermodynamics." Symposium in Honor of C. Austen Angell, American Ceramic Society Meeting, Vancouver, Canada, June 3, 2009.

"Acqua! The Sounds and Science of Water." Entertaining Science Cabaret, Cornelia Street Café, New York, June 7, 2009.

"Structure, Dynamics and Thermodynamics of Water in Nano-Scale Confinement." CECAM Workshop: Modeling and Simulation of Water at Interfaces from Ambient to Supercooled Conditions, Ecole Polytechnique Fédérale, Lausanne, Switzerland, June 30, 2009.

"Water-Mediated Interactions. Fundamentals and Applications." Keynote Lecture. 8th World Congress of Chemical Engineering, Montreal, August 24, 2009.

"Computational Studies of the Thermodynamics, Structure and Dynamics of Water in Nano-Scale Confinement." Opening Plenary Lecture. 6th International Discussion Meeting on Relaxations in Complex Systems, Rome, August 29, 2009.

"Hydrophobic Hydration: Insights from Simple and from Detailed Models." Session in Honor of H.E. Stanley, 6th International Discussion Meeting on Relaxations in Complex Systems, Rome, September 3, 2009.

"Computational Studies of the Thermodynamics, Structure and Dynamics of Water in Nano-Scale Confinement." Schlumberger Lecture, D.B. Robinson Distinguished Seminar Speaker, Department of Chemical and Materials Engineering, University of Alberta, Edmonton, September 10, 2009.

"Computational Studies of Interfacial and Confined Water." Office of Naval Research-AMBIO Workshop on Concepts and Strategies for Surface Engineering to Control Biofouling, St. Petersburg, Florida, December 9, 2009.

2010

“Thermodynamic and Kinetic Models for the Appearance and Amplification of Biological Chirality.” 103rd Statistical Mechanics Meeting, Rutgers University, May 11, 2010.

“Thermodynamic and Kinetic Models for the Appearance and Amplification of Biological Chirality.” Symposium in Honor of Robin Speedy, Victoria University of Wellington, Wellington, New Zealand, July 9, 2010.

“Thermodynamic and Kinetic Models for the Appearance of Biological Homochirality.” Passion for Soft Matter Workshop. Passion for Knowledge Symposium in Celebration of the 10th Anniversary of the Donostia International Physics Center, San Sebastian, Spain, September 29, 2010.

2011

“Thermodynamics, Dynamics and Dimensionality Reduction in Biophysical Simulations.” Second New York Theoretical and Computational Chemistry Conference, The Graduate Center, City University of New York, January 14, 2011.

“Thermodynamic and Kinetic Models of the Emergence of Biological Homochirality.” HES70, Horizons in Emergence and Scaling, H.E. Stanley Symposium and Gala, Boston University, March 19, 2011.

“The Theory of Hydrophobicity: Some Recent Developments on a Venerable Topic.” Eli Ruckenstein Lecture, Department of Chemical and Biological Engineering, University at Buffalo, State University of New York, April 19, 2011.

“Nano-Scale Hydration Phenomena.” American Conference on Theoretical Chemistry, Telluride, Colorado, July 22, 2011.

“Desarrollos Recientes en la Teoria de la Hidrofobicidad (Recent Developments in the Theory of Hydrophobicity).” Plenary Lecture. 2nd Joint Meeting of the Argentine and Uruguayan Physical Societies, Montevideo, Uruguay, September 20, 2011.

“Thermodynamics and Kinetics of Water in Hydrophobic Confinement.” Sessions in Honor of Jan Sengers’ 80th Birthday, Annual Meeting of the American Institute of Chemical Engineers, Minneapolis, October 18, 2011.

2012

“Drying and Hydration of Model and Biological Substrates.” Unilever Symposium on Enzymes in Challenging Environments, Liverpool, United Kingdom, February 3, 2012.

“Evaporation Dynamics of Water in Hydrophobic Confinement.” Symposium on Water Mediated Chemical Assembly, National Meeting, American Chemical Society, San Diego, March 25, 2012.

“The Liquid-Liquid Transition of ST2 Water, Revisited.” Workshop on Structure and Dynamics of Glassy, Supercooled and Nanoconfined Fluids. Centro Atomico Constituyentes, Buenos Aires, Argentina, May 18, 2012.

“The Theory of Hydrophobicity: Some Recent Developments on a Venerable Subject.” William G. Lowrie Lecture. Department of Chemical and Biomolecular Engineering, The Ohio State University, May 24, 2012.

“Thermodynamic and Kinetic Models of the Emergence of Biological Homochirality.” William G. Lowrie Lecture. Department of Chemical and Biomolecular Engineering, The Ohio State University, May 25, 2012.

“Thermodynamics and Kinetics of Capillary Evaporation in Hydrophobic Confinement.” Telluride Science Research Center Workshop on Hydrophobicity: From Theory, Simulation, to Experiment. Telluride,

Colorado, June 12, 2012.

“Hydration and Drying of Biological and Model Substrates.” Foundations of Molecular Modeling and Simulation (FOMMS) Conference. Mt. Hood, Oregon, July 26, 2012.

“Drying and Hydration of Model and Biological Substrates.” Water and Aqueous Solutions Gordon-Kenan Research Seminar. Holderness School, New Hampshire, August 11, 2012.

“Hydration and Drying of Model and Biological Substrates.” Fredrickson Lecture, Department of Chemical Engineering and Materials Science, University of Minnesota, October 11, 2012.

“Using Chemical Engineering Tools to Address an Important Puzzle Concerning the Origin of Life.” Fredrickson Lecture to Undergraduate Students, Department of Chemical Engineering and Materials Science, University of Minnesota, October 12, 2012.

2013

“Liquid-Liquid Transition in ST2 Water.” Focus Session: Supercooled and Nanoconfined Water. American Physical Society Meeting, Baltimore, March 20, 2013.

“Drying and Hydration of Model and Biological Substrates.” Julian C. Smith Lecture, School of Chemical and Biomolecular Engineering, Cornell University, March 25, 2013.

“Thermodynamic and Kinetic Models of the Emergence of Biological Homochirality.” Julian C. Smith Lecture, School of Chemical and Biomolecular Engineering, Cornell University, March 26, 2013.

“Nanoscale Drying and Hydration Phenomena: Fundamentals and Applications.” Opening keynote lecture, 13th International Conference on Properties and Phase Equilibrium for Product and Process Design, Iguazú Falls, Argentina, May 26, 2013.

“Liquid-Liquid Transition in ST2 Water.” CECAM Workshop: New Insights on Simulations, Theory and Experiments in Supercooled Water, Ecole Polytechnique Federale, Lausanne, Switzerland, July 3, 2013.

“The Liquid-Liquid Transition in Water: a Computational Perspective.” International School of Physics Enrico Fermi. Water: Fundamentals as the Basis for Understanding the Environment and Promoting Technology, Varenna, Italy, July 12, 2013.

“The Liquid-Liquid Transition in ST2 Water.” Gordon Research Conference on the Chemistry and Physics of Liquids, Holderness School, Plymouth, New Hampshire, August 6, 2013.

“The Phase Behavior of Supercooled Water: a Computational Perspective.” Symposium on Frontiers in Computational Science, Temple University, October 18, 2013.

“The Phase Behavior of Supercooled Water: a Computational Perspective.” Chair Lecture, Department of Chemistry, University of Nebraska, Lincoln, November 1, 2013.

“Theory and Computation in Modern Chemical Engineering: a Thermodynamicist's Perspective.” 65th Institute Lecture, American Institute of Chemical Engineers, AIChE Annual Meeting, San Francisco, California, November 6, 2013.

2014

“Thermodynamic and Kinetic Models of the Emergence of Biological Homochirality.” Warren L. McCabe Lecture, Department of Chemical and Biomolecular Engineering, North Carolina State University, February 3, 2014.

"The Phase Behavior of Supercooled Water: a Computational Perspective." Roger Miller Lecture, Department of Chemistry, University of North Carolina, February 26, 2014.

"The Liquid-Liquid Transition in ST2 Water." International Conference on Water Sciences, Peking University, Beijing, China, April 15, 2014.

"Chiral Symmetry Breaking: From the Origin of Life to Pharmaceutical Processing." Honorary Professorship Lecture, Beijing University of Chemical Technology, Beijing, China, April 16, 2014.

"Thermodynamic and Kinetic Models of the Emergence of Biological Homochirality." Bird, Stewart and Lightfoot Lecture, Department of Chemical and Biological Engineering, University of Wisconsin, May 13, 2014.

"One Substance, Two Liquids? Computational Studies of the Phase Behavior of Supercooled Water." Molecular Physics Lecture, Liblice Conference on the Statistical Mechanics of Liquids, Sec, Czech Republic, June 19, 2014.

"The Phase Behavior of Supercooled Water: a Computational Perspective." Joint European-Japanese Molecular Liquids Group Conference, Molecular Liquids and Soft Matter – From Fundamentals to Applications, University of Rome III, Italy, September 8, 2014.

"Metastable Liquid-Liquid Transition in a Molecular Model of Water." 112th Statistical Mechanics Meeting, Rutgers University, December 15, 2014.

2015

"Computational Investigation of Homogeneous Ice Nucleation and Metastable Phase Behavior in Supercooled Water." Workshop on Fundamental Problems in the Physics and Chemistry of Water, Houston, January 16, 2015.

"Molecular Simulation in Modern Chemical Engineering: a Thermodynamicist's Perspective." 40th Annual David M. Mason Lectures, Department of Chemical Engineering, Stanford University, May 11, 2015.

"Chiral Symmetry Breaking: From the Origin of Life to Pharmaceutical Processing." 40th Annual David M. Mason Lectures, Department of Chemical Engineering, Stanford University, May 13, 2015.

"Thermodynamics and Kinetics of Deeply Supercooled Water: A Computational Perspective." Molecular Physics Lecture, Thermodynamics 2015 Conference, Copenhagen, Denmark, September 15, 2015.

"Thermodynamics and Kinetics of Deeply Supercooled Water: a Computational Perspective." Barnett Dodge Distinguished Lecture in Chemical Engineering, Department of Chemical and Environmental Engineering, Yale University, October 28, 2015.

"Models of Chiral Symmetry Breaking: From the Origin of Life to Pharmaceutical Processing." 17th W.E. Palke Memorial Lectures, Department of Chemistry and Biochemistry, University of California at Santa Barbara, November 4, 2015.

"Thermodynamics and Kinetics of Deeply Supercooled Water: a Computational Perspective." 17th W.E. Palke Memorial Lectures, Department of Chemistry and Biochemistry, University of California at Santa Barbara, November 5, 2015.

"Computational Studies of Biophysical Systems." Invited Lecture at session on New Frontiers of Molecular Thermodynamics, AIChE Annual Meeting, November 10, 2015.

“Thermodynamics and Kinetics of Deeply Supercooled Water: a Computational Perspective.” Symposium on Liquids and Glassy Soft Materials: Theoretical and Neutron Scattering Studies, Materials Research Society Fall Meeting, Boston, MA, December 3, 2015.

2016

“Thermodynamics and Kinetics of Deeply Supercooled Water: a Computational Perspective.” Greater Boston Area Theoretical Chemistry Lecture Series, Massachusetts Institute of Technology, February 24, 2016.

“Molecular Simulation in Modern Chemical Engineering: a Thermodynamicist’s Perspective.” John A. Quinn Lecture, Department of Chemical and Biomolecular Engineering, University of Pennsylvania, March 16, 2016.

II. Seminars

1984

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, University of Illinois, January 31, 1984.

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, University of Houston, February 24, 1984.

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, California Institute of Technology, March 6, 1984.

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, University of Wisconsin, March 14, 1984.

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, Stanford University, March 8, 1984.

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, Princeton University, March 28, 1984.

"Molecular Diffusion in Supercritical Fluids." Department of Chemical Engineering, University of Delaware, March 29, 1984.

1986

"Sub-Triple Liquids: an Unexplored State of Matter." Department of Chemical Engineering, University of Pennsylvania, April 21, 1986

"From Molecular Chaos to Statistical Order: Some Novel, Predictive Applications of Fluctuation Theory." Department of Chemical Engineering, University of California, Berkeley, December 1, 1986.

"From Molecular Chaos to Statistical Order: Some Novel, Predictive Applications of Fluctuation Theory." Department of Chemical Engineering, University of California, Davis, December 3, 1986.

"From Molecular Chaos to Statistical Order: Some Novel, Predictive Applications of Fluctuation Theory." Department of Chemical Engineering, University of California, Los Angeles, December 5, 1986.

1987

"From Molecular Chaos to Statistical Order: Some Novel, Predictive Applications of Fluctuation Theory." Department of Chemical Engineering, Tufts University, Medford, Massachusetts, April 13, 1987.

"Clustering in Supercritical Mixtures." The Dow Chemical Company, Midland, Michigan, June 23, 1987.

"The Molecular Basis of Supercritical Extraction." AIChE Central Jersey Section, October 20, 1987.

"Sub-Triple Liquids: an Unexplored State of Matter." Department of Chemical Engineering, University of Virginia, Charlottesville, Virginia, December 3, 1987.

"Clustering in Supercritical Solvents and other Topics in Fluctuation Theory." Department of Chemical Engineering, The Johns Hopkins University, Baltimore, Maryland, December 14, 1987.

1988

"Solid Formation and Heterogeneous Catalysis with Near-Critical Fluids." W.R. Grace & Co., Columbia, Maryland, February 10, 1988.

"Thermodynamics and Statistical Mechanics of Near-Critical Mixtures." Department of Chemical Engineering, University of Patras, Patras, Greece, September 8, 1988.

"Thermodynamics of Near-Critical Systems: Theory, Experiments, Simulations, and Applications." Department of Chemical Engineering, University of Pittsburgh, December 9, 1988.

1989

"Thermodynamics of Near-Critical Systems: Theory, Experiments, Simulations, and Applications." Department of Chemical Engineering, Drexel University, January 23, 1989.

"Solids Formation from Supercritical Fluids." Enzytech, Inc. Cambridge, MA, January 27, 1989.

"Thermodynamics of Cooperative Behavior in Near-Critical Systems: Theory, Simulations, and Applications." Department of Chemical Engineering and the Levich Institute for Physicochemical Hydrodynamics, The City College of the City University of New York, February 13, 1989.

"Thermodynamics of Cooperative Behavior in Dilute Supercritical Systems: Theory, Simulations and Applications." Department of Chemical Engineering, Cornell University, April 4, 1989.

"Toward an Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of Chemistry and Chemical Engineering, Stevens Institute of Technology, September 6, 1989.

"Toward an Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of Chemical Engineering, University of Arizona, October 24, 1989.

"Tensile Instabilities, Density Anomalies, and Mechanical Stability in Supercooled Liquids: Using Thermodynamics to Understand the Behavior of Liquids Under Tension." Department of Chemical Engineering, University of Rochester, November 29, 1989.

1990

"Particle Formation from Supercritical Fluids." Merck, Sharp & Dohme Research Laboratories, West Point, PA, January 15, 1990.

"Toward an Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of Chemical Engineering, University of Notre Dame, January 30, 1990.

"On the Cohesive Strength of Liquids: Some Recent Developments on an Ancient Topic." Department of Chemical Engineering, California Institute of Technology, February 1, 1990.

"Toward an Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of Chemical Engineering, Lehigh University, February 14, 1990.

"Toward an Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of

Chemical Engineering, Yale University, March 22, 1990.

"On the Cohesive Strength of Liquids: Some Recent Developments on an Ancient Topic." Department of Chemical Engineering, University of Delaware, April 5, 1990.

"Toward an Improved Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of Chemical Engineering, State University of New York at Buffalo, September 12, 1990.

"Toward an Improved Understanding of the Molecular Basis of Solubility in Supercritical Fluids." Department of Chemical Engineering, Rutgers University, December 13, 1990.

1991

"Stability of Supercooled Liquids." Department of Chemical Engineering, Rensselaer Polytechnic Institute, January 30, 1991.

"Particle Formation with Supercritical Fluids." Merck Pharmaceutical Manufacturing Division, West Point, PA, May 6, 1991.

"Particle Formation with Supercritical Fluids." Lilly Research Laboratories, Indianapolis, IN, June 6, 1991.

"Mechanisms of Solvation and Nucleation in Supercritical Fluids." Advanced Fuels Workshop, Wright-Patterson Air Force Base, Ohio, September 4, 1991.

"How much can Liquids be Supercooled? Kinetics, Thermodynamics, and some Biological and Technical Implications." Department of Chemical Engineering, Rice University, September 26, 1991.

"How much can Liquids be Supercooled? Kinetics, Thermodynamics, and some Biological and Technical Implications." Department of Chemical Engineering, University of California, Berkeley, November 11, 1991.

1992

"How much can Liquids be Supercooled? Kinetics, Thermodynamics, and some Biological and Technical Implications." Department of Chemistry, Purdue University, February 19, 1992.

"Solvation, Nucleation, and Particle Formation in Supercritical Fluids." Department of Chemical Engineering, Purdue University, February 20, 1992.

"Mechanical Instabilities in Some Supercooled Liquids." Department of Chemical Engineering, University of California, Santa Barbara, March 5, 1992.

"Near-critical Mixtures: Microstructure, Thermodynamics, and Applications." Department of Chemical Engineering, California Institute of Technology, April 13, 1992.

"Mechanical Instabilities in Some Supercooled Liquids." Department of Chemical Engineering, University of California, Los Angeles, April 17, 1992.
